

**PETER MÉZEŠ**  
Front-end Developer

I'm a front-end developer and I love what I do.  
Simple as that. Creating fast, smooth, optimized,  
and accessible websites, always learning something  
new, and sharing what I know with others.

**Selection of jobs, which added most to my skillset**

January 2017 - December 2022

**Solution Developer Expert**

**Slovenská sporiteľňa**

The biggest bank in Slovakia, part of the Erste Group. I worked on the digitalization of products and services.

**Tools:**

Vue.js 2/3, MongoDB, NestJS, lots of different tools

**Highlight:**

Ability to progress with digital platform of the company. From one developer, building one product, to 12 developers building over 25 products and services.  
Have direct touch and responsibility for apps, those were used by million clients.

December 2014 - February 2016

**Development Lead**

**smartsourcepartners**

Agency based in Vienna.  
All kinds of agency work. Flash banners, newsletters, microsites. We were also creating an internal system for data management for big car manufacturer brands.

**Tools:**

HTML, JS, CSS, PHP, Flash AS2

**Highlight:**

Data management tool to merge client's data from several different databases. One-time-use tool, but it was a great team of devs and those who used it.  
We have managed to progress data way more effectively and correct than the prediction was.

June 2010 - April 2013

**Web Production Lead**

**IBM**

We did content creation for one of the world's biggest electronic device manufacturers. As a flash developer, I worked on advanced flagship product pages. Later, as web product lead, I was more admin than developer. My job was to communicate with clients in specific regions (SEBN / UK), making sure their requests are clear to developers and we don't miss anything. Also, other way round, our outcome is as it was requested.

**Tools:**

HTML, CSS, JS, Flash AS2/3

**Highlight:**

Not much of a technical thing, but my soft skills were boosted here.

August 2008 - June 2010

**Ads & Media creator**

**Redworks Digital**

This was my entry to the world of profi media agency. All kinds of work from flash banners, newsletter cutting, microsites development, etc.

**Tools:**

Flash AS2, PHP, HTML, CSS, JS, After Effects

**Clients:**

Nestlé, Swarovski, AMEX, IBM, British Airways and many more

**Highlight:**

Participation on AMEX campaign 'Realise the potential'. We created lots of amazing banners in flash. Original in design, animation and idea.

📍 Bratislava, Slovakia

**SKILLS**

**I'm good at**

- Vue.js
- TypeScript
- UX
- Sharing
- CSS
- SVG
- Animations
- Listening

**Can do**

- PHP
- JS Frameworks
- Firebase
- Photoshop
- Python
- Flutter
- Figma
- Premiere

**Learning right now**

- Strapi v4
- Qwik
- Math
- Go
- Unreal Engine

**LANGUAGE**

- Slovak
- English
